Open APC schema

The schema provides guidance on how to contribute to the Open APC initiative. Every line describes a column in our dataset. Where input is not required, we automatically fetch and add the information, if available. Discontinued columns were removed from the dataset.

Mandatory and optional columns

Only the first 5 columns are mandatory in all cases. The 4 columns marked as optional are required **only** if at least one of the articles listed in your contribution does not have a DOI assigned. In that case, the articles in question have to provide these 4 data fields as additional information ([Example](#)).

column	column_old	description	source	input_require
institution	Institution	Top-level organisation which covered the fee, e.g. Bielefeld University	none	mandatory
period	Period	Year of APC payment (YYYY)	none	mandatory

column	column_old	description	source	input_require
euro	EURO	The amount that was paid in EURO. Includes VAT and additional fees	none	mandatory
doi	doi	Digital Object Identifier	none	mandatory
is_hybrid	is_hybrid	Has the article been published in a toll access journal?	none	mandatory
publisher	publisher	Name of publication house that has charged the fee	CrossRef	optional
journal_full_title	journal_full_title	Full name of periodical that contains the article	CrossRef	optional
issn	issn	International Standard Serial Number	CrossRef	optional

column	column_old	description	source	input_require
issn_print	issn_print	International Standard Serial Number - print version	CrossRef	no
issn_electronic	issn_electronic	International Standard Serial Number - electronic version	CrossRef	no
issn_l	issn_l	Linking International Standard Serial Number	ISSN International Centre	no
license_ref	license_ref	License under which the research paper has been published	CrossRef	no
indexed_in_crossref	indexed_in_CrossRef	checks if the contribution is registered with the DOI agency CrossRef	CrossRef	no

column	column_old	description	source	input_require
pmid	pmid	id for metadata records indexed in Europe Pubmed Central (Europe PMC)	Europe PMC	no
pmcid	pmcid	id for articles available in Europe PubMed Central full text collection	Europe PMC	no
ut	wos_ut	Web of Science unique item id	Web of Science	no
url	--	URL to article if no DOI is available	none	optional
doaj	DOAJ	Is the journal indexed in the Directory of Open Access Journals (DOAJ) ?	DOAJ	no

column	column_old	description	source	input_require
--	base_url	Base URL of repository or CRIS that stores additional metadata		discontinued
--	repo_id	ID of the institutional metadata record		discontinued

Suggesting new metadata fields

To suggest new metadata fields, please use the [Open APC issue tracker](#).

Column naming conventions

- lower case
- use underscore to separate words
