ORE Specifications and User Guides - Table of Contents
2014-08-14

Start Here if you are new to OAI-ORE. The [Primer](#) introduces basic concepts and describes the OAI-ORE specifications at a high level.

- [Primer](#)

User Guides provide instructions creating Resource Maps in various formats and describe the mechanisms to make them available on the Web. These include:

- [Resource Map Implementation in RDF/XML](#)

- [Resource Map Implementation in RDFa](#)

- [Resource Map Implementation in JSON-LD](#) *(beta release for comment, v0.9 2014-08-14)*

- [Resource Map Implementation in Atom](#) *(deprecated)*

- [HTTP Implementation](#)

- [Resource Map Discovery](#)

Specifications define the underlying OAI-ORE data model and the vocabulary for the entities and properties in that model. These include:

- [Abstract Data Model](#)

- [Vocabulary](#)

Build OAI-ORE-based applications with the help of these tools and resources:

- [Tools and Additional Resources](#)

- Comment and discuss on the [OAI-ORE Google Group](#)
